SUMMARY

I am a new graduate of Information Systems at Telkom University Purwokerto with a strong interest in software development and UI design. I have skills in HTML, CSS, Javascript, and experience in developing web applications using Laravel and Laravel Filament. Additionally, I am familiar with RAD, SDLC methodology. I have participated in several academic projects and internships that gave me practical experience in database management, application development, and user needs analysis. I am always eager to learn new things and ready to face challenges at work with enthusiasm and dedication.

Certification

Web Developer

Badan Nasional Sertifikasi Profesi (2024-2027)

A screenshot of the Satria Tech website's "Our services" page. The page title is "Our services". Below it, a section titled "Package Testing Mobile and Web App" includes a circular icon with a smartphone and a brief description of their service: "Kami menawarkan pengembangan aplikasi client-server dalam 10 hari, dengan laporan analisis dan rekomendasi lengkap. Serta, kami melakukan 6 sesi pengujian untuk aplikasi mobile dan 3 sesi untuk situs web." A "SELENGKAPNYA" button is at the bottom of this section. Further down the page, there is an "About us" section with a blue hexagonal logo and the text "SATRIA TECH".

Redesign UI/UX

CV Satria Tech

- Handling communication media
- IT Duties as operator

UI Design

Cafe Explorer on Purwokerto Website

The image displays a collage of screenshots from the "Cafe Explorer on Purwokerto" website, showcasing its user interface design across several pages:

- Home Page:** Features a large banner image of a cafe interior, a "Welcome to Café Explorer" section, and a "WHY Purwokerto?" section with a night view of a fountain.
- Cafe Details:** Shows cards for various cafes like "Milenium Coffee House", "Etal Coffee Purwokerto", "Dirama Coffee Living", and "Colony". Each card includes a thumbnail, address, rating, and operational hours.
- Review Section:** Titled "Ulasan", it shows reviews for "Milenium Coffee House" and "Etal Coffee Purwokerto" with their respective ratings and comments.
- Recommendation Section:** Titled "Berikan ulasan dan rekomendasi", it includes sections for "What we offer?", "Temukan Cafe Favorit", "Dapatkan pengetahuan baru", and "Bagikan pengalaman anda".
- Menu Section:** Titled "Macam-macam menu kopi", it displays images of coffee drinks: "Americano", "Cappuccino", and "Mocca".

The website uses a dark-themed header with navigation links: Home, Café, Coffee, About us, Another menu. The footer contains copyright information: © 2024 Café Explorer on PWT. All Rights Reserved.

UI Design

Website Point of Sale

The screenshot displays the Nakopi POS website interface, specifically the Dashboard page. The layout is organized into several sections:

- Header:** "Nakopi POS" logo, search bar, notification bell, and user profile icon.
- Left Sidebar:** "Nakopi POS" title, navigation menu with categories like "Shop", "Inventory", "User", and "Product". The "Product" category is currently selected, showing sub-options: "List Produk" (selected), "Produk" (highlighted), "Kategori", "Varian", and "Asal".
- Central Content Area:** "Dashboard" title, user info ("Welcome admin"), sign out button, and Filament v3.2.0 documentation link. Three main metrics are displayed in cards: "Revenue Rp200k" (50k increase), "New Customer 150" (1% increase), and "New Orders 2k" (1% increase).
- Right Sidebar:** Product details section with fields for "Nama Barang", "Date" (Create at: 20/07/2024, Last Update at: 20/07/2024), "Associations" (Asal, Kategori, Variants), and "Variants" (Varian).

UI Design

Management Information System

The image displays five screenshots of a Management Information System (MIS) interface, likely for a coffee shop named "FreshBeanPurwokerto".

- Screenshot 1: Dashboard - Shopping Cart**

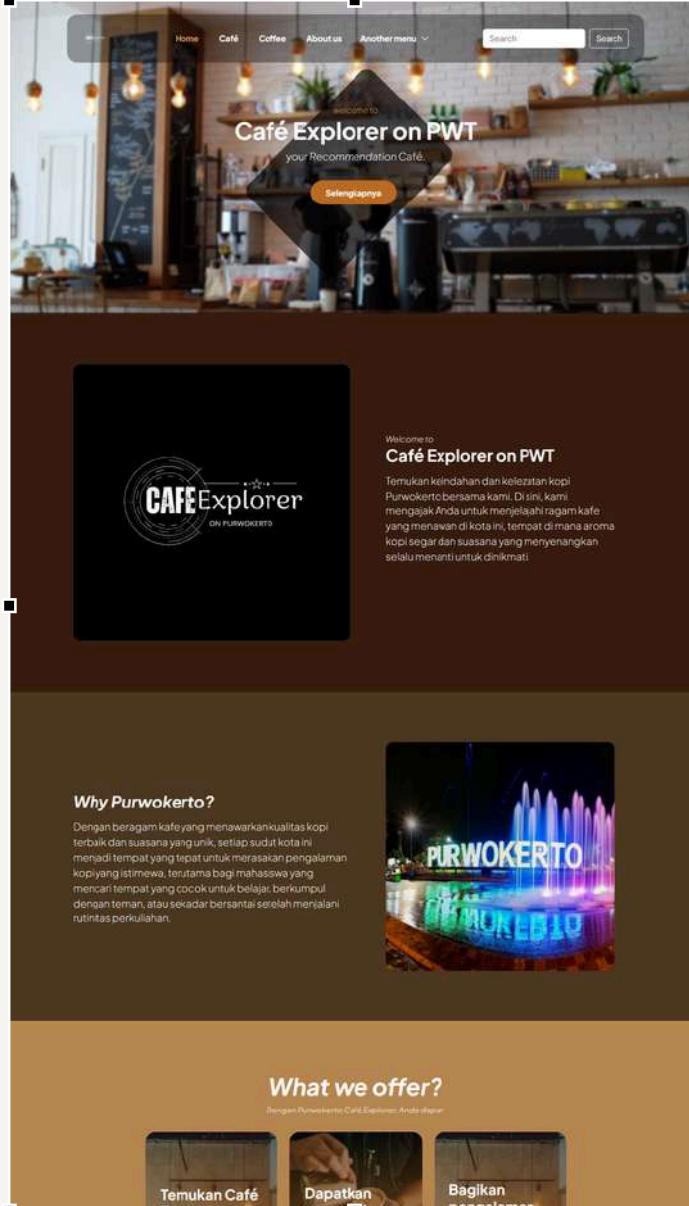

This screen shows the shopping cart section of the MIS. It lists two items: "Arabica Gayo Aceh" (Rp50.000) and "Robusta Bali" (Rp50.000). Each item has a quantity selector (- +) and a remove icon.
- Screenshot 2: Product Page**

This is a product listing page titled "Welcome to Our Store". It features a large image of coffee beans and a cup of coffee. Below the image, there's a "Selengkapnya" button and a "Shop Now >" button. The page also includes a "REKOMENDASI PRODUK KAMI" section with recommended products.
- Screenshot 3: Product Page**

This screenshot shows a detailed view of a product page. It displays a grid of 20 products, each with a thumbnail, name, and price. The products are: Produk 1 (Rp.), Produk 2 (Rp.), Produk 3 (Rp.), Produk 4 (Rp.), Produk 5 (Rp.), Produk 6 (Rp.), Produk 7 (Rp.), Produk 8 (Rp.), Produk 9 (Rp.), Produk 10 (Rp.), Produk 11 (Rp.), Produk 12 (Rp.), Produk 13 (Rp.), Produk 14 (Rp.), Produk 15 (Rp.), Produk 16 (Rp.), Produk 17 (Rp.), Produk 18 (Rp.), Produk 19 (Rp.), and Produk 20 (Rp.).
- Screenshot 4: User Profile / Settings**

This screen shows a user profile or settings page. It includes fields for "Email Address", "Phone Number", "Address", "City", "Postal Code", "Country", and "About Me". There are "Previous" and "Next" buttons at the bottom.
- Screenshot 5: Footer / Copyright**

The footer of the website includes links for "Tentang Kami", "Menu", "Dashboard", "Products", "Privacy Policy", "Terms & Conditions", and "Kontak Kami". It also features social media icons for Facebook, Instagram, and YouTube. The copyright notice at the bottom reads: "© 2024 FreshBeanPurwokerto | Toko Suplier Biji Kopi. All Rights Reserved."

Cafe Explorer on Purwokerto Website

Course Project

This website is used to view or search for cafes in Purwokerto. This website displays cafe details.

Development using: HTML, CSS, Javascript

Database using: Firebase

This website already has Google Adsense available

Live Demo

Website Point of Sale

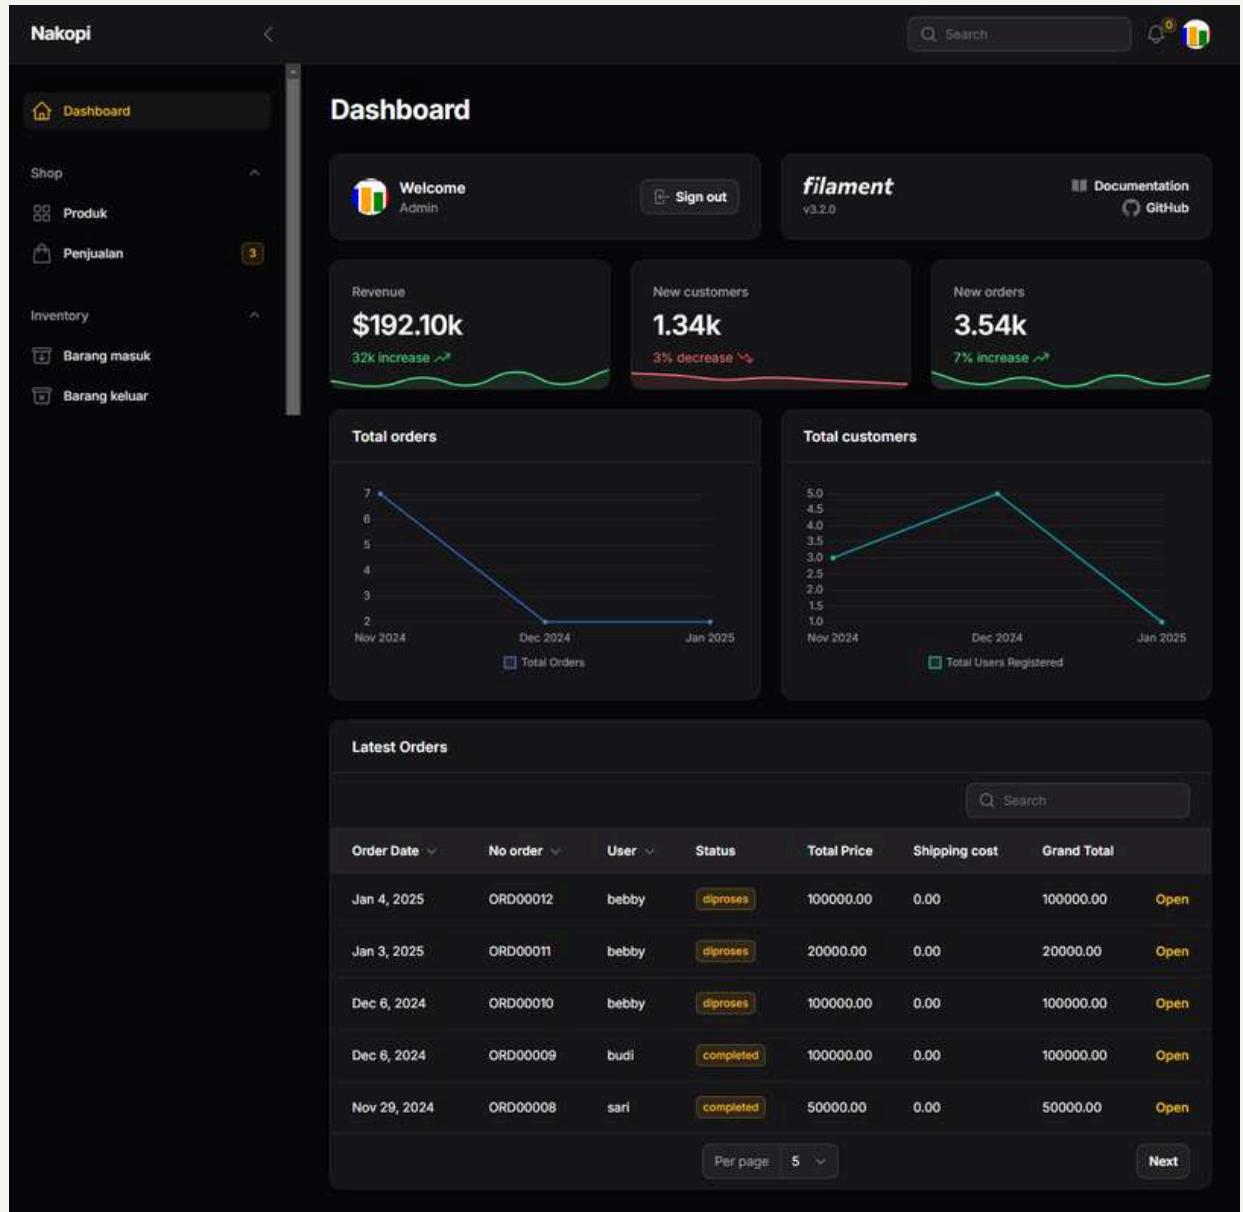

Capstone Project - Toko Nakopi

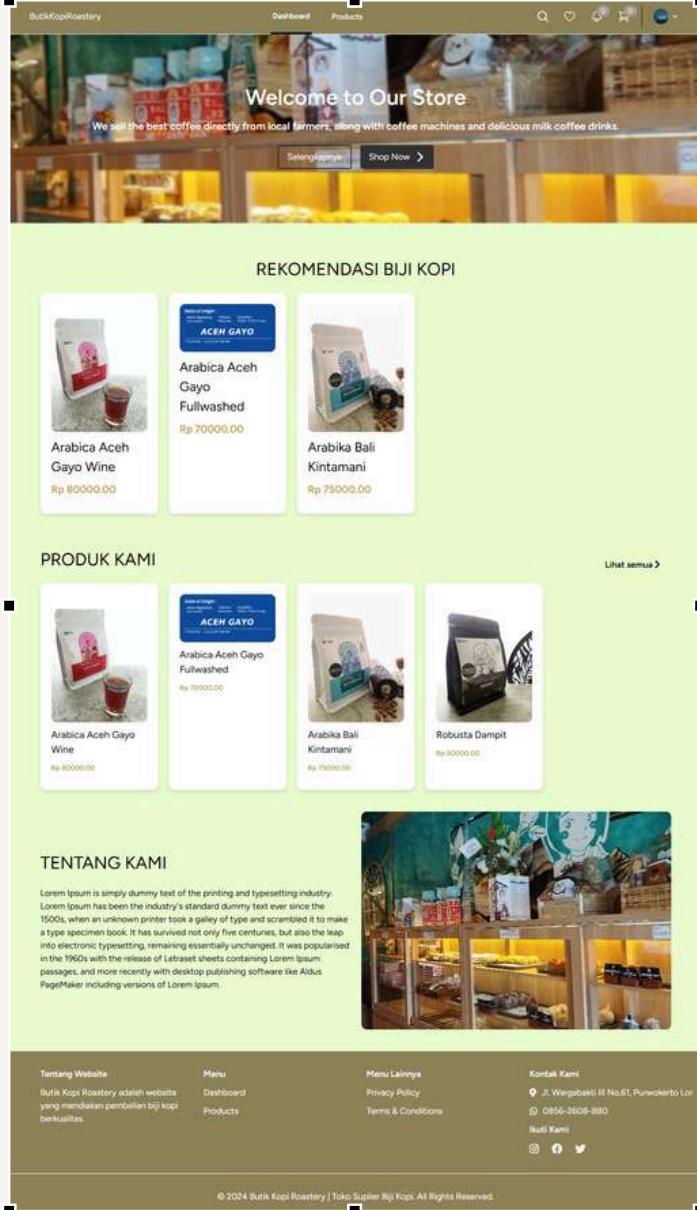

A point of sale website is implemented at the Nakopi Shop which is used for admin in managing sales and inventory.

Development using: Laravel Filament

Database using: MySQL

Live Demo

Management Information System

Thesis Project - Toko Suplier Biji Kopi Fresh Purwokerto

This website-based management information system has sales and inventory features aimed at purchasing by customers and managing sales and inventory for shop owners.
